## PROVIDE A UNIQUE AND PERSONALIZED LEARNING EXPERIENCE

Learning is everywhere, motivate students and learners to take advantage of every moment to master a skill.

Deliver and Aggregate Learning Experiences

Territorium offers all the tools needed to deliver courses online.

Territorium gives the option to aggregate content, courses and learning experiences from any other provider.

The platform helps to deliver and get data from other types of learning experineces such as internships, sports, cultural activites among others.

MEASURE AND MANAGE LERANING

Territorium gives the option to manage and measure learning with several tool for:

Online asessment
Rubrics
Teacher/Instructor Evaluation
Grades
Giving follow-up to curriculum completion

CREATE AND CURATE LEARNING EXPERIENCES

Territorium helps in the creation and curation of learning experiencies:

Create evaluations and activity paths for practice learning experiences

Create content withtin the platform

Decide which content and paths for that content

GAMIFICATION OF LEARNING

Create a challenge-based approach to learning in which you can manage projects and win points and medals for activities done.

Students can compete with each other in a fun manner.

EVALUATE TEACHERS AND LEARNING EXPERIENCES

Tools for teacher evaluation taking into account automatic reports such as grades, time in which they communicate with students, activities reviews and also information from polls

The platform gives automatic feedback to teachers and recommend them a personalized learning path to improve their next instruction

LIVE LEARNING EXPERIENCES

Territorium has a very complete webconference system to manage LIVE learning experiences.

Territorium also integrates with MS Teams to mange live events and pull data from your remote learning experiences.
